

**Notice of Intent to Construct and Operate an  
Authorized Municipal Solid Waste Disposal Facility**

**Permit No. 2332 – Type I Landfill**

The Texas Commission on Environmental Quality (TCEQ) issued Municipal Solid Waste (MSW) Permit No. 2332 to Texas Regional Landfill Company LP on November 2, 2009, authorizing the construction and operation of Jacksboro Landfill, a Type I MSW management facility (Facility), to be located approximately 13 miles southeast of the City of Jacksboro and approximately 1.25 miles south of the intersection of SH 199 and FM Road 1156 in Jack County, Texas. On January 17, 2014, the TCEQ's decision to issue MSW Permit No. 2332 became final and non-appealable. Waste Connections is providing notice that it will begin construction and operation of the Facility at a future time. The estimated date when the Facility is expected to begin construction and operation is January 1, 2021.

The activities authorized by TCEQ MSW Permit No. 2332 include the below-grade and aerial filling of landfill sectors with waste resulting from, or incidental to, residential, commercial, institutional, municipal, manufacturing, industrial, recreational and construction activities; and the Facility will include a variety of disposal units, structures, appurtenances and improvements, including access roads, drainage controls, composite-lined disposal sectors, final cover systems, landfill gas and groundwater monitoring systems, and other permitted features. The Facility is not permitted to accept regulated hazardous waste, Class I industrial solid waste, radioactive waste, PCB waste, infectious medical waste, or bulk liquid waste.
